COVID-19 UPDATE

Dear Customer

The Anglotech Group's primary focus is the health, safety and wellbeing of our employees, clients, their families and communities and we have already taken and will continue to take proactive steps and measures to minimise impact and risk in relation to Coronavirus, Covid-19 and our employees and clients wherever possible.

With the government's latest announcement on 23rd March, as of close of play on the 24th March we will be closing all our offices until further notice.

Our board of Directors and senior management teams communicate daily on all Covid-19 developments and we are continuously making decisions in line with government directives to reduce and minimise risk to our employees and clients.

Most of the team will be working remotely where possible, so please contact us if you have any questions

Stay Safe from everyone at the Anglotech group

Kind regards
